

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

HENRY'S Official Western Theatrical Guide

has met with most unanimous favor, for it has long been realized by western managers that local conditions were such and so constantly changing that only a distinctive western publication could meet the requirements of the situation.

This compilation has been accurate, free from any personal considerations and will be found helpful to all who are interested in the theatrical business.

We offer our thanks to the theatrical managers whose enthusiastic endorsement of HENRY'S GUIDE has made this book possible.

Each year we will improve it—keeping it always up-to-date.

Professionally yours,

HENRY'S OFFICIAL WESTERN THEATRICAL GUIDE

Some Out-of-the-Way Routes That Mean Money for Small Shows

MARSHFIELD CIRCUIT.

A circuit that is worthy of consideration from the fact that it is isolated and seldom visited is the above. It embraces four prosperous towns, one of which, Marshfield, being good for a week. There are steamer connections from San Francisco, the "M. F. Plant" leaving Vallejo Street Wharf once a week. There are also two boats leaving Portland, i. e., the "Alliance" and "Breakwater." Fare in either direction is \$10.00. Marshfield; Coquelle, Bandon and Myrtle Point. Take C. B. R. and E. R. R. out of Marshfield and boat to Bandon only.

WAGON CIRCUIT

The following list of houses in Northern California and Southern Oregon can be played by small companies and picture shows to advantage. They are given in routine after leaving the main line S. P. R. R. at Hornbrook: Keno, Ore.; Klamath Falls, Ore.; Ft. Klamath, Ore.; Merrill, Ore.; Bonanza, Ore.; Lakeview, Ore.; New Pine Creek, Ore., and the following in California, i. e., Ft. Bidwell, Cedarville, Eagleville, Lake City, Alturas, Likely, Susanville, Beckwith, and Loyalton, with rail connections to Reno or Boca.

SOUTHERN OREGON CIRCUIT (Small).

Given in routine from the south, via S. P. R. R. Ashland, Medford, Gold Hill, Grants Pass, Etna (side stage ride), Riddles, Roseburg, Oakland, Cottage Grove, Eugene, Harrisburg, Springfield (S. R.), Albany, Lebanon, Corvallis, Independence, Dallas, Sheridan, McMinnville, to Portland.

PICTURE SHOW ROUTE.

The following is given by a well-known agent as being a desirable route for a picture show in California and Southern Oregon: Yreka, Etna, Callahan, Drain, Elkton, Gardiner, Marshfield, Myrtle Point, Bandon, Coquelle, North Bend, Empire City, Florence, Acme, Mapleton, Springfield, Coberg, Lebanon, Albany, Harrisburg, Eugene, Junction City, Oakland, Riddle, Keno, Klamath Falls, Fort Klamath, Merrill, Bonanza, Bly, New Pine Creek, Ft. Bidwell, Cedarville, Eagleville, Lake City, Alturas, Likely, Susanville, Beckwith, Loyalton to Reno.

THE "KITE" CIRCUIT.

A very remunerative and inexpensive trip out of Los Angeles covers the following cities: Pasadena, Pomona, San Bernardino, Redlands, Riverside, Santa Ana, with a double to San Diego if necessary.

The above circuit is under the control of Harry C. Wyatt.

SOUTH SAN JOAQUIN VALLEY ROUTE.

A tour for small companies going down the Valley one way and returning without a double should be booked as follows: Newman, Los Banos, Lemoore, Hanford, Visalia, Porterville, Dinuba, Reedley, Sanger, Fresno, Madera, Merced, Modesto, Stockton.

NORTH SAN JOAQUIN VALLEY ROUTE.

An advantageous route from San Francisco up the San Joaquin Valley will embrace the following cities: Petaluma, Napa, Woodland, Arbuckle, Colusa, Willows, Orland, Corning, Redding, Red Bluff, Chico, Oroville, Marysville, Wheatland, Lincoln and Sacramento.

To send the following telegram from Portland to San Francisco would cost \$1.90

"Want as soon as possible, talented and good-looking leading man, leading woman, soubrette with good specialties, shapely and good-looking—wardrobe, appearance and ability must be indisputable and unquestionable; state the very lowest salary for which they will work. We pay transportation on the road. Long engagement if prove satisfactory. Answer at once at our expense by wire."

To send same telegram by using the THEATRICAL CIPHER CODE would cost 50 cents
